Ghana Education News / [ghanaeducation.org](http://ghanaeducation.org)

DAY	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
Morning/Dawn	English	Social	Int. Sci.	Maths	R.M.E	Maths	Int. Sci.
Afternoon	French	Gh. Lang.	R.M.E	Social	Int. Sci.	English	B.D.T
Evening	Maths	B.D.T	French	ICT	I.C.T	Social	R.M.E

### Advise to BECE candidates from Ghanaeducation.org

1. Start preparing for the BECE. Start learning learning now, do not wait until a month or two to BECE before you get serious.
2. Take every mock serious and find answers to questions you were not able to answer very well in the mock.
3. Attempt to solve the questions you did not choose in the mock when each mock is over and find the answers to them.
4. Do not miss classes, participate in all assignments and home works.
5. Train yourself to wake up at dawn to learn for at least one hour.
6. Change your friends if they are not helping you to get any serious with your study.
7. When you learn, write by summarizing the points learnt, solve past questions, set your own questions on the topics and solve them
8. Teach others what you have learned, this helps you to remember most of the things you learnt.
9. Stop looking for Apor. Some students are even looking for Mock apor. You must be serious and work hard.
10. You can pass the BECE, believe in your self and prove this to everyone through hard work and dedication.
